The residential development overlooks the Mediterranean, offering unmatched views of the entire city and coast. The ideal place for embodying state-of-the-art, sustainable architecture capable of integrating itself into the surroundings without foregoing a recognisable and attractive identity. The large terraces and windows characterise the building design, well-suited for the enjoyment of the homes, creating a singular, modern look. The properties are set above Torremolinos, with the utmost care taken with their orientations to ensure that they receive the maximum amount of natural light and offer unbeatable views over the horizon and the city skyline. Torremolinos is much more than a holiday destination. Thanks to its proximity to Málaga and access to the A-7 dual carriageway, it has all the services of the capital at its disposal, including the international airport. The project's extraordinary location and painstaking landscaping is complemented by comprehensive communal areas, including a large swimming pool with solarium.
