Srinjine, an excellent house with a functional layout, extends over two above-ground floors.

The ground floor consists of an entrance hall, living room, kitchen with dining room, pantry, bathroom, while on the first floor there are three bedrooms with attached bathrooms.

The garage was converted partly into a bedroom and partly into a storage room. The living area on the ground floor has access to a small gym with a sauna, and a fenced part of the yard where there is a barbecue.

The spacious garden hides a heated swimming pool, around which there is space for deck chairs, as well as a cultivated garden and paved parking spaces.

It is located in an extremely quiet location 17 kilometers from Split, with all necessary facilities nearby. The facility has been operating in tourism for several years with an excellent investment return.

I am available for all other questions.
