Veliko Brdo, in an idyllic and peaceful location, with an open view of the sea, two typical villas are being built. They are separated from the sea by less than two kilometers as the crow flies, and are surrounded by greenery, offering their future owners complete privacy.

The villa is divided into two floors. The ground floor consists of a corridor, a storage room, a staircase, a sauna, a bathroom, a kitchen with a dining room, and a living room with access to the terrace where there is a heated swimming pool. The floor is divided into three bedrooms with attached bathrooms, one of which has access to the balcony. There are two outdoor parking spaces next to the building.

The planned completion of construction is the middle of 2025.

I am available for all other questions.
