Excellent property of 29 hectares in the municipality of Vila Flor, with ideal characteristics for farming, as well as rural tourism. With a privileged location, for being inserted in the "Douro Demarcated Region" the products produced here in the farm are of recognized value! Currently the existing production is clementine, orange and lemon in 1/3 of the property - being already all the production sold to 2 large areas in Portugal! The remaining 2/3 are naturally available for other productions! The property has a natural water spring which is a wealth of incalculable value for the farm! In addition, it has 4 water reservoirs to support the drip irrigation by gravity in the entire production of the farm! In this property you will surely find several investment solutions to monetize your business. We are confident that you can get a good deal. We look forward to your contact.
