Project was born of the idea of discovering the concept of 'home' closest to life.

The family life of modern urban people was handled through 24-hour life with an innovative architecture. 'The House' concept has been redesigned to live not to shelter. 'House life' has been transformed into a different life experience by integrating with creative common spaces and public spaces.

Concierge service offering many services such as home services service, event organizations, valet service, car wash where every detail is considered 7/24 available to your order. Also large halls, kitchens, rooms have been enlarged. Horizontal comfort is also reinforced by vertical comfort; floor heights were designed as 3.50 meters.

Project has an iconic architecture where spacious spaces are offered to apartment owners with special design options. 95 percent of the project sees sea views. Project, which has a 13-kilometer long beach, will have commercial areas by the sea in Harbour Bazaar, which is 5 thousand square meters.
