Project, is a project of mixed concept close to TT Arena Stadium. Hotel, shopping center, residences, offices and shops will be located in Project has a land area of 46 thousand square meters.

Project bearing the signature of world famous architect Broadway Malyan and has an investment cost of 700 million dollars. The 38-storey residence block includes City Suites, City Apartmentst and Sky Suites. The project includes 987 residences, 518 offices and a shopping center with a rentable area of 40 thousand square meters.

Project residents can access concierge services through smart building technologies and benefit from various services such as technical service, paramedics and shopping.

While the air conditioning technology in the residences creates different heat values in different places and enables a more comfortable and economical life, the touch panel stands out with the ability to control the entire lighting and air conditioning system through mobile devices and computers.

In the Seyrantepe region, whose face is changing every day and gaining prestige, the Project, implemented in a location adjacent to the Turk Telekom Arena, attracts people with its location. With its direct connection to the TEM highway, exit to Ayazağa and Maslak via Cendere street, and being located right next to the metro station, Project is extremely ambitious in introducing a unique life to approximately 15 thousand people with its easy access to the airport, bridges and main arteries.
