Project provides an excellent solution for investors seeking aesthetics and comfort combined, as a concept-based project reflecting quality to the smallest detail of architecture. This special project will offer you an indispensable feeling of peace with its design, comfort and location, thanks to the use of world-class brands in construction and decoration. The key for a luxury life in which you will have all the details for a quality living is waiting for you at Sheer Line .

Project , which was carried out in Esenyurt-Bahçeşehir, is built on a land of 7 thousand 600 square meters. The 45-storey single tower blog will include residence apartments between 19 and 39 floors, 3 floors with 2000 m2 each floor, and a total of 6000 m2 social area.

Sheer Line project will include social facilities such as children's playgrounds, fitness center, sauna, swimming pool, security, parking, cafe, walking areas, sports fields.
