The common ground for people who enjoy Istanbul's dynamic pace, view each new day with a fresh start, and live life to the fullest.

Its elegant architecture transforms the district, while its enviable location adds value to both life and the investment. Project was planned to complement the district's rapidly changing and transforming identity.

The independent departments in the Project consist of 1195 residences, 223 commercial areas. The project includes 1 bedroom + 1 living room, 2 bedrooms + 1 living room and 3 bedrooms + 1 living room apartments. The sizes of the houses in the Project are offered to the home buyers in a range of 53 square meters to 203 square meters.

Project residents can spend time as they wish in alternative living spaces such as the hobby room, cinema room and meeting rooms. Those who enjoy an active lifestyle will find the ideal track for long runs at the tartan running track connected via bridges, located on top of the single-story shopping complex at the center of the project. Project's swimming pool, fitness center, sauna and hamam are at your service everyday, whenever you want to sweat it out and relax... Your kids can also enjoy an active and fun social life thanks to the outdoor athletic units and both indoor and outdoor playgrounds.
