Project is a very special project on the Zeytinburnu Shore, one of the most popular locations in İstanbul. It consists of 7 separate blocks with options of 1 bedroom +1 living room to 4 bedrooms +1 livingroom. Glass-walled houses, green parks, gyms, open-air swimming pools and social areas such as SPA, add pleasure to your life.

Every apartment in Project is equipped with many technologies. Thanks to the KNX Automation Control System, almost everything in your house will be under your control even if you are away from home.

Opening to the sea from all doors, each and every apartment in Project is fitted with expansive terraces with incredible panoramas. Residences take advantage of open plan areas to create modern homes perfect for year round living in İstanbul. Whether you are purchasing a one bedroom unit or a five bedroom unit, properties have an endearing interior that is overly spacious and welcoming from the moment you enter. In Project all homes have smart systems installed, allowing homeowners the ability to control their property via an app on their phone.

Project offers an impressive open air commercial area full of internationally branded shops, coffee houses, boutiques and everything else needed for daily living - all just an elevator ride away. Project is fully equipped with a range of social, cultural, and entertainment facilities designed to keep residents busy and delighted with their lifestyle at all times. Owning a property in Project is an absolute privilege
