the fresh air of the forests**

Turkey, Istanbul

Price:	€ 402 558
Object type	Apartment
Category	For sale

With a view of the Princes' Islands, in the fresh air of the forests... Being the new spot of a peaceful and happy life, Urbe Undarum was designed as an ergonomic and ecological project. The coastline painted with the unique blue of the Marmara Sea and Istanbul's oxygen reservoir Aydos Forests accompany this project.

Designed with the concept of bringing the city and the sea together, Urbe Undarum offers quiet places in its broad and spacious areas. Having a sea view in all 176 apartments and 4 villas, Urbe Undarum is the most prestigious urban transformation project in the region. The project makes its residents enjoy the freshness of blue and green while including 8 types of apartments and 2 types of villas and appealing to every budget and lifestyle.

More than 80% of the project, which is constructed on an area of 6359 m2, consists of landscaped green spaces. In addition to the walking tracks, indoor and outdoor sports areas, the landscape area is designed as a neighborhood.
