Designed by the Barcelona-based studio, these contemporary-style villas allow you to customize your space, with a choice of one or two suites and up to two additional guest rooms.

Inside, tile floors are complemented by white marble finishes in the kitchen and bathrooms, creating an open space without compartmentalization. The kitchen has French doors that open to the outdoor dining area and allow for expansive views of the garden and private pool. The upper floor has parquet floors and the master bedroom has its own terrace.

In addition to underfloor heating and air conditioning, all homes are equipped with home automation systems with internet access control and security systems connected to the resort's central office.
