The complex consists of two two-story buildings with 24 outdoor parking spaces, community pool, large green areas and individual solariums. The homes are designed to take full advantage of the location, offering the best views of the golf course. The large windows are oriented to let in the sun, warming the house in winter and flooding it with natural light. Strategically placed openings provide ventilation to the facades and patios. The environment is landscaped with native plants, which favors water conservation and maintains a bioclimatic balance. The vegetation purifies the air, creates cross ventilation and absorbs CO2 emissions. All homes are designed and equipped to high energy efficiency standards. **BEDROOMS** 2 or 3 bedrooms. **BATHROOMS** 2 bathrooms in each house. **ADDITIONAL SERVICES** Private outdoor parking, community pool, large green areas, individual solarium and terrace. Completion date: December 2024
