Offering not only real estate, but also inspiration taken from nature itself, this project is located in a strategically advantageous location. Every aspect of this project is designed to capture and convey the essence of harmony and beauty in the world around us.

Architecture inspired by nature: the curves and lines of the facade of this residential complex resemble the grace of sea waves, and the play of light on the surface creates the feeling of sun reflections on the water. This project aims to be a place where every design element complements and enhances the beauty of the natural landscape.

Fitness center: the 900 square meter gym is equipped with the latest generation equipment, offering ideal conditions for lovers of an active lifestyle. Personalized training programs from coaches and instructors will help you achieve any fitness goals.

Italian Restaurant: The luxurious 540 square meter restaurant space not only offers a delicious menu, but also serves as a venue for various events. Italian cuisine here turns into art, inviting you on a culinary journey through Italy.

Multifunctional event space: ideal for corporate events and stylish parties, offering a unique combination of gastronomy and atmosphere.
