This remarkable villa offers an unparalleled living experience as it is situated in an exclusive and serene locale between Torrevieja and La Mata. Just 1 kilometre from the sea and a short stroll from the renowned La Mata beach, it enjoys a prime location surrounded by supermarkets, pharmacies, and various amenities merely 150 meters away. Constructed in 2003, the residence spans three floors—first, second, and basement—comprising 349 square meters on a meticulously landscaped 775 square meter plot. Meticulously curated with top-notch materials chosen by the discerning owner, the villa features an inviting entrance hall, a spacious living room, and a well-appointed kitchen. Boasting three bedrooms (one on the first floor and two with dressing rooms on the second floor), the villa also offers three complete bathrooms (including two ensembles) and a convenient poolside toilet. The basement level houses a generously-sized family room and a storage area, adding to the property's functionality. An indoor pool, bathed in natural light streaming through a skylight and expansive windows, creates a serene oasis within the villa. Outdoor spaces include a south-facing second-floor area and a sprawling terrace encircling the first floor, perfect for enjoying the sun and fresh air. While centrally situated on the plot to maximize space, the villa features a north-facing main entrance and a south-facing pool area and terrace, offering a perfect balance of privacy and exposure to natural light.
