Primošten, residential and commercial stone house on the waterfront!

The stone house was completely renovated in 2003 with a gross area of 150 m2. It extends over three floors. On the ground floor there is a well-established office space of 54 m2 with two sanitary units and a storage room. In front of the space there is a terrace in the concession of the city.

An external staircase leads to the residential part of the property, in the nature of two apartments connected by an internal staircase, each with an area of 50 m2. On the first floor is an apartment consisting of a kitchen, dining room, living room, bedroom and storage room. The second floor consists of a kitchen, dining room, living room, two bedrooms and a bathroom.

Thanks to its exceptional location, the property is an excellent investment.

More information on request.
