Novi Vinodolski, a house by the sea with a pool, an exceptional property with an area of 160m², with three parking spaces in a closed yard. Both bedrooms and the living area offer a view of the sea, which is only 10 meters away, accessed by stairs from the garden to a small, "invisible" beach.

The house is a single-story building, partially attached to the neighboring building, but thanks to skillful architectural design, it provides complete privacy for its residents.

The exceptional beauty of this building, in addition to its functionality and simplicity, is certainly its location. Finding a house by the sea is almost impossible, but for buyers with refined taste, we have the solution.
