We offer for sale an apartment in a new project in the heart of Jurmala near the park and the seaside. The real advantage of the project is the huge park, spreading the crowns of its trees right behind the territory of the houses. The alleys of the park will undoubtedly become a favorite place for fans of both quiet and active recreation. The rich infrastructure and location of the project guarantees convenience and ease of access to the cultural and commercial facilities of the city. Minutes of free time can also be spent on the sea coast, which is less than a five-minute walk away. The famous Jomas street and Dzintari complex are also within walking distance from the house.

The apartment is located on the third floor and has a sunny balcony. The apartment has a well-thought-out layout and high-quality finishing - a living room combined with a designer kitchen and an exit to the terrace, a master bedroom with a bathroom, a children's room with its own bathroom. Ventilation and air recovery system, all necessary equipment, a fireplace, a wine cabinet, heated floors, parquet. The territory of the residence is guarded, fenced and completely safe. An equipped playground will provide fun leisure for the younger generation of residents of the complex. The territory of the houses is fenced with a high fence, but it will not interfere with the view of the picturesque area, which opens from the balconies and terraces of the residential complex.

The bonuses of this project are: gas heating, terraces in all apartments, concierge service, internal and external security of buildings. Detailed information about the apartment can be obtained by contacting us by phone or sending a request from the site.
