Rivieras - where creative sybarites go for inspiration, for relaxation, to socialise and indulge. A new icon for Limassol Riviera, The Residences offers elegance and understated glamour in Limassol's only beachfront destination, from the heritage brand behind the island's first boutique hotel. With a dedicated cohort of discerning guests returning year after year, seduced by the hotel's coastline location and boutique luxury offering, demand has grown for an elevated experience: a bespoke, personal destination which can be enjoyed throughout the year. The team behind the residence recognise what their devoted guests find so special about this place. They don't want to be near the sea, they want to be on the sea. They don't want to spend time somewhere acceptable, it must be exceptional. They don't want homogenous, they want unique.
