It is next to the recently restored forest park "Dzintari" with numerous walkways and modern playgrounds. The park is surrounded by luxury multi-apartment projects designed in the unique style of Jurmala wooden architecture.

Currently, the property consists of a land plot - 3459 m2, two buildings for demolition and one residential building for reconstruction. It is possible to implement a three-story multi-apartment house while reconstructing a wooden house, which perfectly fits in with the overall concept of the project.

Outside the window is the well-groomed territory and the central part of Dzintaru Avenue. The apartments will be with partial decoration.
