The Creek Beach District is an integral part of the overall Dubai Creek Harbor Master Plan. Situated along with the last large site on the historic banks of Dubai Creek, Dubai Creek Harbor will become an urban center that will provide a lifestyle has no analogues in Dubai. Surrounded on one side by the Ras Al Khor Wildlife Sanctuary, this waterfront development with breathtaking views of Dubai will be a flagship development in the region. The master plan defines the development as low to mid-rise, and the design intent is to create a pedestrian-friendly, human-scale area conducive to shopping, socializing and recreation. The concept is to create a modern interpretation of an old Middle Eastern city, with a vibrant first level of F&B, retailers and their residents.
