Hartland Waves, located in the Waterfront District, is a clean, 35-story contemporary architecture towering in front of the 1.8-kilometre boardwalk that Sobha Hartland is installing on its waterfront. The façade is a simple interplay of horizontal and vertical shapes that provide uninterrupted 360-degree views from each home in the tower to enjoy the sunrises and sunsets of every beautiful day. Two sharp angles have a vertical accent, leading the eye to the light floating roof, creating a feeling of breeze and lightness. Hartland Waves will be the first tower on Waterfront D.
