We offer townhouses in the club residential village of Tivat, in the Donja Lastva area. There are 11 villas in total, including townhouses, duplexes and penthouses. Townhouses with private garage, swimming pool and terraces with stunning sea views.

The complex is designed in such a way that the owners enjoy a magnificent view of the sea thanks to large glass surfaces and numerous terraces, and natural light was present in every square meter of the complex. In the project, modern architectural forms and technologies are gently combined with traditional elements of stone and wood to achieve the perfect symbiosis of architecture and the surrounding context. The open spaces of the complex are of particular value. Green terraces, swimming pools, water islands, barbecue areas and open-air solariums are an integral part of a respectable lifestyle.
