Sisli is considered the heart of Istanbul. It has good transport accessibility, is surrounded by hospitals, shopping malls, restaurants and other places of attraction for people.

Despite the fact that the rhythm of a big city is felt here, there are also many tourist places here - magnificent green areas.

For example, Macka Park and Yhlamur Pavilion.

This new project is being built in Sisli quarter, Nisantasi district. The building area is 24,000 sq.m.

The complex provides for 160 premises for both apartments and commercial real estate.

The developer offers a choice of nine types of layouts - from a cozy apartment to a luxurious duplex.

There are apartments with one, two, three, four and five bedrooms, and duplexes - with two, four, five and six bedrooms.

The master bedroom of each apartment has an en-suite bathroom and walk-in closet. Some apartments have terraces with a private pool.

Since the complex is surrounded by low-rise buildings, as well as green gardens, the apartments offer stunning views of the Bosphorus.

During construction, all safety standards for the arrangement of residential buildings in seismic activity zones were observed.

Nisantasi is considered one of the prestigious areas of Istanbul due to its central location.

There are many residential complexes offering their residents a high level of services and comfort.

This has a positive effect on the value of real estate in the area and attracts active people who love a high standard and quality of life.

Buying a property in this project is suitable for obtaining Turkish citizenship.

Nearby are: Istanbul American Hospital, Yhlamur Pavilion, Nisantasi shopping street, Macka Park, Selenium Twins residence and Osmanbey quarter.

For foreign buyers, buying this property in this area of Istanbul gives you the opportunity to immerse yourself in the magnificent nature, rich history of Turkey,

a beautiful view of the Bosphorus and, at the same time, allows you to live in the very center of Istanbul without sacrificing this beauty.
