70% - On time construction

10% -Upon completion

A unique residential complex. Construction of the 70-story building started in 2022, and in 2025 buyers will be able to move into their apartments. The project is the epitome of luxury living, highlighted by the impeccable style of the Cavalli fashion house, bold design solutions and unique layouts. The architectural concept was developed by Sean Killa, known for his unique vision and innovative design ideas. The project is ready to offer its residents:

high-speed elevators;

a huge variety of apartments ranging from 82 sq. m;

private beach with a swimming pool of 900 sq. m;

a unique infinity pool on the 58th floor;

large terraces with barbecue areas.

The key feature of the project is the creation of a comfortable living environment. There are no more than 5 apartments on each level, which will ensure maximum comfort and privacy. The project will be an ideal choice for lovers of environmental friendliness. Each apartment has a hydroponic wall, thanks to which residents can grow a real miniature garden in their apartments.
