residences in a high-rise architectural masterpiece located in the prestigious Al Safa area of Jumeirah. The tower rises in the center of Dubai's busiest waterfront area.

Luxury lifestyle for you in a futuristic paradise near Sheikh Zayed Road in Dubai. This is yet another signature residence of the developer, truly the pinnacle of Dubai luxury. It is an 83-story tower with futuristic architecture and a design jointly developed with Swiss jeweler De Grisogono.

The project is a residential complex consisting of two towers of different heights. The non-standard appearance of the towers and convenient location are the main advantages of the building. Apartment owners and their guests will no longer have to choose between rest and work. Now you can swim in an endless pool, spend time with friends and family, and train in modernly equipped gyms at any time of the day.

The following social and entertainment infrastructure facilities are within walking distance from the residential complex:

large modern park;

children's, playgrounds and sports grounds;

several swimming pools for children and adults;

fitness center, gym, yoga room;

Canadian Kids Nursery and Jumeirah International Nursery;

secondary schools Safa British School, Global Indian International School and Dubai International School;

cafes, restaurants and shopping centers.

The transport interchange of the area in which the residential complex is being built allows you to travel to anywhere in Dubai within a few minutes. For example, the Business Bay business district can be reached in just 10 minutes, and the road to the airport and the most popular areas of Dubai, such as Dubai Marina and Deira, takes 20 minutes. Want to spend time on the beach? No problem - you can get to Jumeirah Beach in 10-15 minutes.
