Turkey, Istanbul

Price:	€ 319 120
Object type	Apartment
Market	New building
Bedrooms	3
Number of rooms	4
Category	For sale

In the European part of Istanbul, there is a thriving district of Bagcilar. It harmoniously combines the developed urban infrastructure and beautiful, modern architecture. It was here that it was decided to build a new multifunctional residential complex. Everything you need for a comfortable life is within walking distance: shopping centers, medical facilities, schools and the university. You can get anywhere in the city by metro. There are two metro stations nearby. There is a major road junction within a 10-minute drive with access to the O-3 and O-7 expressways. The international airport is only 30 kilometers away. The residential complex is a huge building, located on an area of 1700 square meters. Inside there is all the necessary infrastructure, from covered parking lots and gyms, to Turkish baths and children's entertainment rooms. Sports grounds for football and basketball will help you spend your free time outdoors. More than 500 square meters have been given over to various green spaces. In total, the house has 50 apartments and suites, with an area of up to 196 square meters. Most have a similar layout, namely 3+1. There are 4 apartments on each floor.
