In Istanbul, there is the Bagcilar district, which houses a residential complex. To make it convenient for its residents to live, one of the most important infrastructures for them is located here. There are 2 metro stations in the Bagcilar area, which are located close to the property (approximately one kilometer). Not too far away there is a road junction that goes to the exit of highways O-3, O-7. A big plus of this complex is the short distance of the shopping center from this object, you can get there in 15 minutes if you walk. It is two kilometers from the hospital to this residential complex, educational institutions are also located in this area. The airport is located twenty-seven kilometers from the object. The object has an area of one thousand seven hundred square meters and is one residential building. For green spaces, a plot of 550 sq. m. In this object there is a zone to relax, a place where you can work out, as well as a games room that has a PlayStation. The complex has many places where children can have fun (football and basketball courts), and a recreation area where you can breathe clean air. The residential complex has fifty dwellings. There are 4 on each floor. Each apartment has the same layout: 3 + 1 and an area of one hundred and ninety-six square meters. m.
