Number of rooms	4
Area	169 m2
Category	For sale

The presented project will be attractive not only to investors, but also to those who want to obtain Turkish citizenship. It is also designed to provide a comfortable life in the heart of Istanbul. Everything you need is within walking distance, for example, the subway or the school where your children study. Levent is an elite area in the center of the Turkish capital. It is the business and commercial center of Istanbul. This is where the project is located. It has all the conditions for a comfortable stay: shopping malls (among them Istinye Park and Zorlu), central offices of banking institutions, business centers, educational, medical and entertainment facilities, beauty salons. The main idea of the housing complex is "Life in nature, but in the center of a modern metropolis." The design of the project was made taking into account the possibility of providing residents with the greatest pleasure thanks to modern infrastructure, as well as benefiting from the proximity to forests. The area of the complex is 103 thousand km². It consists of 16 blocks, which is more than one thousand apartments (layout from 1 + 1 to 5 + 1). In addition, 40 premises for various commercial purposes are equipped here, and some apartments are equipped with terraces. The highlight of all this splendor is the harvesting by the residents of the complex directly from the fruit trees that grow on the same territory.
