| Bedrooms | 1 |
| Number of rooms | 2 |
| Area | 69 m2 |
| Category | For sale |

This project may be of interest not only to those wishing to profitably invest money. It is worth paying attention to both those who prefer a comfortable life in Istanbul and those who wish to become citizens of Turkey. Everything you need for life is within walking distance: from educational institutions to metro stations. The residential complex was built in the very middle of Istanbul, Levent district - the elite, business and commercial center of the city. This is the location of the main offices and prestigious shopping centers: Zorlu and Istinye Park. In addition, there is everything for the most comfortable life: beauty salons, business centers, schools, hospitals and a lot of places for entertainment. Living in the center of a large metropolis, the population of this residential complex does not lose touch with nature. When developing the project, the absolute maximum was taken into account: both the comfort that modern infrastructure provides, and the benefits provided due to the location of the project inside the forest. The territory of the complex is 103,000 square meters and includes 16 blocks. They have more than 1000 apartments of various sizes: from 1+1 to 5+1. In addition to residential buildings, the buildings include about 40 commercial premises. Some apartments have terraces. Fruit trees are planted in the garden next to the houses. And in the fall you can collect fruits from them, which is a huge plus.
