Not only investors will be interested in this project, but also people who want to obtain Turkish citizenship and live in the very center of the large historical city of Istanbul. Developed infrastructure allows children to walk to school and to the nearest metro station. The project is located in the center of the prestigious Levent district, which is the main business and commercial center of the city of Istanbul. The largest shopping centers such as Zorlu and Istinye Park are located in this place. In addition, there are bank offices, business centers, educational and medical organizations, beauty salons and diverse entertainment venues. The main idea of the development can be expressed by the phrase "Life in nature, but in the center of a modern metropolis." The project is primarily aimed at comfortable living among modern developed infrastructure and beautiful landscaped forests adjacent to it. The territory of the complex is 103,000 sq.m. In 16 blocks there are over 1000 apartments with a variety of layouts from 1 + 1 to 5 + 1, some of them with a terrace. In addition, 40 commercial premises are located here. A big plus for the residents of the complex is the possibility of harvesting various fruit trees in the garden located on the same territory.
