This unique residential complex will be of interest to everyone: investors who want to obtain Turkish citizenship and just those who want a comfortable stay in the heart of Istanbul. Everything you need for life, be it a park, a school. The complex is located in the center of Levent. This is an elite area of Istanbul. All the prestigious infrastructure, establishments and huge shopping centers, such as Istinye Park and Zorlu Center, are located here. Leading bank offices, various beauty and health centers, entertainment centers, and parks are concentrated. A huge variety of everything you need for a good life. The project was built according to the idea: to live in the center of the metropolis and close to nature at the same time. The residential complex provides a lot of advantages of the surrounding infrastructure. But quite environmentally friendly, because of the forests surrounding it. The large streets are full of high-rise buildings, but it is worth turning into a residential area, there is silence and vegetation around. This is a feature of the region. The project is located on 103 hectares of territory and consists of sixteen blocks. This is a total of 1000 apartments from 1 + 1 to 5 + 1, as well as more than forty commercial premises. Most apartments with terraces. By the way, you can collect fruits from the trees that are located in the garden in the project area.
