Area	187 m2
Category	For sale

The residential complex in Essentepe is one of the best examples of European architecture in Istanbul next to the Kartal district, which is always in full swing. Although the residential complex is located inside a noisy metropolis, its courtyard is striking in its abundance of greenery: this is a real oasis of nature. You can walk along the paths and relax in designated areas. Playgrounds are provided for the little ones. There are several artificially created reservoirs. The main advantage of the residential complex is its favorable location. You can get to Istanbul along the E-5 highway next to the complex. The nearest metro station is within walking distance. Nearby there are educational and medical institutions, as well as shopping and entertainment centers. The LCD itself covers an area of almost 40 thousand square meters and includes 12 residential buildings with 865 apartments. Apartments 1 + 1 have balconies and everything necessary for the comfort of residents. On the lower floors there are non-residential facilities: numerous shops and catering points. The complex provides parking for a large number of places. For sports lovers there is a swimming pool and a gym. For those who prefer to relax with dry steam, a sauna is offered. Thanks to all of the above, this complex is a profitable investment.
