Modern Istanbul perfectly combines European architecture, nature and its traditions. This harmony can be observed in one of the districts of the city - Esentepe. It presents the best examples of European architecture, green spaces, places for recreation, artificial reservoirs, footpaths, playgrounds and other infrastructure. Within walking distance from the project are a shopping center, a hospital, educational institutions, a metro station. A short drive away is the exit to the E-5 motorway. The object itself is thought out to the smallest detail. Its territory provides all the conditions for a comfortable stay - parking, gym, indoor pool, sauna and spa, shops and cafes located on the lower floors. The total area of the project is 40 m2, on which there are 12 residential buildings. In total, the object has 865 apartments of a high level of comfort. The apartments are 1 + 1 layout and provide a cozy balcony from which amazing landscapes open up. This complex will be a great place for a comfortable permanent residence and a profitable investment option.
