This residential complex is the most beautiful and amazing! It conveys and emphasizes the whole European atmosphere, and it is also built in Esentepe in Istanbul! There is everything you need to ensure that anyone living in this complex can find something beautiful for themselves. Yes, you heard right, this residential complex is indeed located in Istanbul, which is famous for being very noisy, but at the same time, this area is famous for well-being and mercy, which is lacking in other parts of the huge metropolis. Esentepe has a lot of natural plantations, places for recreation, all kinds of gazebos where you can wait out the scorching sun, playgrounds, ponds that give coolness even on the hottest days, and much, much more! The location of the residential complex is also charming. Leaving this area, you can get on one highway, which makes absolutely any area of Istanbul closer, even if it is located on the other side of the city. This is the E-5 motorway. With the help of this road you can arrive at the other end of the city in just 15-20 minutes! There are more than 850 apartments in this residential complex. This complex consists of 12 buildings. Each building, starting with the entrance and ending with any apartment, is of increased comfort, so there is simply nothing to complain about. There are cafes and shops on the lower floors, so you won't have to walk long to buy the same ketchup. Each floor has large balconies for complete comfort. There are places for entertainment and recreation for all family members! Kids can splash in the pool, men can relax in the gym, and girls can sit in the sauna on a warm evening, sipping a cocktail and relaxing not only spiritually, but also physically.
