This project is interesting both for investors and those wishing to obtain Turkish citizenship, as well as for a comfortable life in the center of Istanbul. Everything you need is literally within walking distance. Whether it's a metro station or a school for your children. The project is located in the heart of the elite district of Levent - the leading business and commercial center of Istanbul. The most prestigious shopping centers such as Istinye Park and Zorlu are concentrated here, as well as bank head offices, business centers, beauty salons, medical, educational and entertainment institutions - everything you need for a comfortable life. The development concept is "Life in nature, but in the center of a modern metropolis". The project has been designed in such a way as to get maximum comfort from modern infrastructure and maximum benefit from the surrounding forests. The complex is located on an area of 103,000 sq.m. and consists of 16 blocks, these are more than 1000 apartments with layouts from 1 + 1 to 5 + 1, as well as 40 commercial premises. Some apartments have terraces. Separately, it is worth noting the opportunity to harvest from fruit trees in the garden, right on the site.
