The residential complex is located in the Beykoz district, which is located in the Asian part of Istanbul. This is an ecologically clean area of the city, which is famous for the Beykoz-Chubuklu forest and a stunningly clean lake. The project is presented on an area of 28 thousand square meters and includes 219 apartments with spacious terraces and balconies. The developed external component is another plus of the residential complex in Beykoz. In just over 20 minutes, you can easily reach Istanbul International Airport or Sabiha Gokcen International Airport. As for the internal infrastructure, the modern residential complex is equipped with: a fitness center; basketball court and running track; covered parking; indoor and outdoor pools; playground for children; footpath; tennis court; 24/7 security cameras. Only here is a truly unique landscape combined with a beautiful green area, which will provide a quiet and peaceful stay close to the financial center of Istanbul. In the residential complex you can buy apartments with different layouts: from 2 + 1 to 6 + 1. Among them are duplexes, with an area ranging from 98 to 227 square meters. The project presents various options for floor plans, which will allow residents to choose the most optimal option for living. In the LCD you can buy housing, both for your family and for a profitable investment. The value of such a project lies in the creation of a concept of life in an ecological part of the city with a truly unique nature. Recently, it is for this that the Beykoz area has been so valued in terms of housing sales. A comfortable life outside the city is ensured by easy accessibility to major shopping centers, major transport interchanges and ferry ports, so residents can easily provide themselves with everything they need and easily get to and from work.
