Object type	Apartment
Market	New building
Bedrooms	1
Number of rooms	2
Area	95 m ²
Category	For sale

This property is located in the Kadikoy area in the Asian side of Istanbul and combines an excellent working environment with an embodied family property concept. It consists of offices, a shopping center and five high-rise buildings that house apartments. The location in Kadikoy is very convenient for both motorists and pedestrians. The Eurasia Tunnel is only a five-minute drive from the facility, which makes it easy and quick to get to the European side of the city. There are also bus stops, a metrobus line and a metro station within walking distance. Kadikoy has all the necessary infrastructure for a comfortable life. There are many educational institutions in the area, from kindergartens to universities. Several hospitals are located nearby. The high-rise buildings of the project are a striking example of modern architecture and will become the new dominant of the district. Non-standard landscape design options are used on the adjacent territory, including vertical gardening. The facility offers apartments with layouts from 1 + 1 to 3 + 1 with one or two balconies. From the panoramic windows of the upper floors offer excellent views of the city. The residential complex has indoor and outdoor pools, fitness center, sauna and hammam, SPA, cafe and restaurant, as well as a garden. Parents will appreciate the kindergarten, which is located on the territory.
