Area	180 m2
Category	For sale

This residential complex is located in the new business district of Istanbul, Seirantepe. It combines modern architecture with developed infrastructure and excellent transport accessibility. At the same time, the historical districts of Istanbul are very close. The facility is located within walking distance from the Turk Telekom stadium. The proximity to the TEM and E5 highways makes it easy to get anywhere in Istanbul. The nearest metro station is two kilometers from the residential complex, but there is a bus stop a couple of hundred meters away. There are many shopping centers and small shops and restaurants in the area. Hospitals, schools, universities and other social facilities are within walking distance. A large park for walks with the whole family is literally a stone's throw away. The residential complex consists of eight buildings from 11 to 21 floors high. In total, 935 apartments are available in it with layouts from 1 + 0 to 4 + 1. Most of the apartments have spacious covered and open balconies, in some layouts there are two or three of them at once. There are apartments with terraces, where it is especially pleasant to spend time on summer days. The object has an excellent internal infrastructure. Residents have access to walking paths and playgrounds, a fitness center and a sauna, and outdoor pools. The green house territory with artificial ponds and fountains is ideal for relaxation.
