Are you dreaming of a cozy apartment with a beautiful view and on the seashore? Maybe this project of high-level luxury apartments is exactly what you need. Residential buildings are located in the very center of Istanbul (Fatih district) on the shores of the gentle Marmara Sea. Outside, they are absolutely unique - during the reconstruction, their original appearance, which the architect conceived during construction, was preserved, but inside the apartments are finished according to the most modern and new trends in architecture and construction. The apartments themselves inside are slightly different - there are 1 + 1 or, for example, 6 + 1, which allows you to choose the appropriate option without any inconvenience. Also, a special lighting system is installed in the building - not a single corner of your apartment will be left without soft and comfortable light for the eye. The houses are equipped with a rich infrastructure - from several types of baths and spas to a whole indoor pool and other amenities for practicing various sports. But do not forget about the real comfort of living here - absolutely all residents of the houses are provided with services such as: House cleaning Dry cleaning and full-fledged clothing care Security system and 24-hour reception Private parking and car care.
