This original object was built in the very center of Antalya in the Kepez district. The developer has tried to create comfort and uniqueness. That is why the residential complex resembles a real city within a city. There are 19,000 apartments on an area of 1,300,000 m2. Their layout starts from 1+1 and ends with 4+1. All living quarters have large balconies and panoramic windows that offer a beautiful view of the city. Some ground floor apartments come with spacious terraces and gardens. On the territory of the residential complex there is its own large park with walking paths, artificial reservoirs, and equipped places for recreation. The project provides for a special place for walking four-legged pets. The mini-city has educational institutions, a hospital, street cafeterias, premises for commercial companies and shops, and street cafeterias. Children's and sports grounds, as well as a swimming pool, have been built for small residents. For sports, the facility provides a gym, a swimming pool. The territory of the residential complex is closed. It is guarded round the clock by the security service. In the immediate vicinity of the residential complex there are shopping centers, a museum. In addition to the external infrastructure, the developer also took into account transport accessibility during construction. A step away from the residential complex there is an automobile interchange, from which you can get to any part of Antalya, as well as to neighboring cities. For residents who do not have a car, there is a tram stop within walking distance.
