These magnificent, luxurious villas are located in Kalkan near the city center. Thanks to its convenient location and developed infrastructure, many services are literally within walking distance. The area has everything you need: schools, shopping facilities, shops, hairdressers, markets, restaurants, coffee shops, etc. Permanent residence with the family here will be comfortable and convenient. On one plot there are two four-storey villas. The territory of the object is 657 sq. m., and, importantly, 537 of them are green spaces. The layout of both villas is the same: 4+2. Near each of the villas there is a swimming pool with a landscaped area for a pleasant stay by the water. In addition, there is an indoor pool on the underground floor where you can swim at any time of the year. There is also a sauna and a gym room. On the ground floor of each of the villas there is a spacious living room with a separate exit to the terrace and a cozy bedroom. On the second floor there is a large kitchen and dining room. There is a large balcony where, on a clear day, you can sit with your loved ones or have lunch. There are two more bedrooms on the upper floors. Residents do not have to worry about comfort and warmth in cold weather: the villas have heated floors. Lightweight, durable aluminum window frames and doorways give the building additional aesthetics and charm.
