The architectural ensemble was created in a modern, memorable style. The facade is dazzlingly white in color and shape, visible at a considerable distance from the object. The complex is located in a modern, rapidly built-up district of Altıntaş in the city of Antalya. The distance to the airport is only five hundred meters. You can go shopping by combining it with a pleasant walk or a ride in transport. The distance to the nearest shopping center is about three and a half kilometers. The beach is a little further - five kilometers. In the future, it is planned to organize a transfer to the airport and to the nearest beach. Remarkably, it will be free to use. The residential complex consists of one large residential building, 10 floors high and covers a territorial area of about ten thousand square meters. Accommodations are offered in a variety of layouts. There are 287 apartments in total. Some of them have their own garden and swimming pool with terrace. It is possible to purchase apartments with a completely fine finish and even with all the furniture necessary for the kitchen, household appliances, air conditioning and heated floors. A beautiful and large outdoor swimming pool has been built near the house. In the neighborhood there are several parking lots of various sizes, a playground for children, a barbecue area and several bars. In addition, there is a sports center with an indoor pool, which can be visited all year round; a salon with SPA procedures, a room for a fun pastime for children, as well as a cinema and a room for playing in the PlayStation.
