Market	New building
Bedrooms	6
Number of rooms	8
Area	533 m2
Category	For sale

This object makes it possible to live in one of the prestigious areas of Istanbul - Beylikduzu, but in your own villa. It is located on a hillside, so many villas can admire the sea panorama. Two-storey villas are built in a modern style with panoramic windows. Each has its own garden and swimming pool. The residential complex consists of three types of villas. Type A includes detached villas with an area of 533-543 square meters, surrounded by a garden that covers from 363 to 425 square meters. In total, six such villas are available at the facility. Type B are twin villas, each with a private pool and garden space. The area of such objects is from 406 to 433 square meters, and the garden - from 250 to 290 square meters. In total, four villas of this type are available in the residential complex. Type C is a block of four villas. Each of them has a separate entrance, its own garden and swimming pool. Housing of this type is located higher than others on the slope of the hill, so the terraces offer the most impressive panoramic views of the sea. The area of villas C is from 495 to 571 square meters. They are adjoined by a garden from 205 to 368 square meters. Four such villas are available for purchase. Each villa is provided with an elevator. There is also parking. The closed territory of the residential complex is under round-the-clock security. The villas are rented with a fine finish, for which only high-quality materials of well-known brands are used.
