This residential complex is literally immersed in greenery. Of the total 30,000 square meters, 18,000 square meters have been given over to green spaces. As a result, the windows offer excellent views of the surrounding landscapes, and finding a place to relax in the fresh air is not difficult. The facility is located near Lake Buyukcekmece. It, like the Sea of Marmara, is perfectly visible from the windows of the upper floors. In the Buyukcekmece area, where the complex is located, there is everything you need for a comfortable life. There are more than two hundred shops and shopping centers within walking distance. Many hospitals and pharmacies are also within easy walking distance. There are also many bike paths in the area, which makes cycling especially comfortable. From the residential complex it is easy to get to any area of Istanbul thanks to the E-5 highway. Another important TEM Highway is ten minutes away. Within walking distance from the object there is a metrobus station and a bus stop, through which six routes pass. Minibuses run to the beach on Lake Buyukcemece and Bahcesehir. There are 14 low-rise buildings in the residential complex. It sells 495 apartments with layouts from 2 + 1 to 4 + 1. Numerous internal infrastructure facilities are available to residents. These are outdoor and indoor pools, a fitness center, a sauna and a Turkish steam room. The saunas and the indoor pool operate according to the scheme: two days for women, two days for men, two days for families. One more day a week is provided for cleaning of all objects. On the territory there is a playground, as well as areas for recreation and picnics. There is a covered garage for residents' cars.
