Area	152 m2
Category	For sale

This facility is located in the Beyoglu district in the European part of Istanbul - in the heart of the metropolis. Very close to Taksim Square, Istiklal Street and other points of attraction for both locals and tourists. For the residents of this complex, absolutely everything is nearby. There are two metro stations within a five minute walk. There are also several schools and universities, museums within walking distance. There are many shopping centers, restaurants and entertainment around. The nine-storey building features a bright modern architectural concept. It offers layouts from 1+1 to 3+1, but this is largely a convention. An important advantage of the object is sliding walls. If desired, you can separate the bedroom from the living room with a slight movement of the hand, as if drawing a curtain. And it is also convenient, if necessary, to turn the apartments into a single space. The apartments have large balconies and terraces from where you can enjoy city views. A total of 245 apartments are available at the facility. The residential complex is also a new commercial point of attraction for Beyoglu. It offers 15 convenient offices. The total area of the territory is 7 thousand square meters. Residents have access to a variety of internal infrastructure facilities: a swimming pool, a fitness center and SPA, their own cinema. A variety of shops are also located on the ground floor. The facility offers a variety of services for the most comfortable stay. The concierge works around the clock, you can order food delivery, cleaning or babysitting services for a child at any time. Transfers to the airport directly from the house are also available.
