We present to your attention a new object of complex development. Its construction is being carried out in one of the most prestigious districts of Istanbul - Nisantasi. The key phrase in this description is complex development. For the simple reason that on an area of 97,000 square meters there is literally everything you need. 62 apartments, 99 office premises, as well as a hotel with 146 rooms, a shopping center and parking for 600 cars - this is only a part of all the facilities of the complex. The developer offers both residential and commercial properties for purchase. In addition to 99 offices for sale, there are retail spaces that are ideal for boutiques and branded stores, as well as for cafes and restaurants. The building of the shopping center in itself is already a work of architectural art. Each floor is decorated differently, but the project is thought out to the smallest detail. For the convenience of buyers and customers, one of the exits from the metro leads directly to the third level of the shopping center. The space on this floor will be used as a gallery.
