A luxury residential complex located on the shores of the Marmara Sea in the Kazlıçeşme microdistrict of the Zeytinburnu district of the European part of Istanbul, and built on an area of 110,000 square meters. Designed in the concept of "new urbanism", which is designed to bring back to life and restore historic buildings, and is aimed at respecting and preserving historical and cultural heritage. It includes restored historical buildings that combine unique spaces that include a center of culture and art, a fashion design workshop, a kids club, a music school, cafes and restaurants, as well as designer boutiques and lofts. One of the main highlights of the project is a special bridge that connects the residential complex with the coastal area, which offers not only a magnificent view of the sea, but also walking and running areas. Also, the residents of the complex have the opportunity to go in for sailing. The complex is located a few minutes drive from the Eurasia Tunnel, as well as the IDO Bakırköy Terminal, Ataköy Port, IDO Yenikapı Terminal and the main Istanbul highways - E-5 and TEM, making the transport accessibility of the complex one of the most developed in Istanbul. The project is a residential complex consisting of 1481 sea view apartments, as well as loft and penthouse apartments, and offers future owners layouts from 1 + 1 to 5 + 1, the area of which varies from 55 to 545 square meters.
