Apartment 4 + 1 in a residential complex with areas for walking by the sea

Turkey, Istanbul

Price:	€ 1 031 637
Object type	Apartment
Market	New building
Category	For sale

The project is included in the list of residential complexes with a luxury class, located next to the coast near the Sea of Marmara in the European part of Istanbul. The luxurious complex occupies more than 100 thousand square meters. The residential complex is like a new urbanism, which calls for a return to life and the restoration of a historic building. The concept itself is aimed at a favorable attitude and preservation of the historical heritage of culture. The residential area includes historical-style rooms that have been restored, while the building also offers attractive locations, such as a music school, cafeterias, aesthetic boutiques, an art center and more. One of the most attractive advantages of the residential complex is considered to be a bridge that connects the living space with the area near the shore, from where the residents can see the noisy waves of the sea and the area for evening and morning walks is available. Also, the settled people who have chosen this project have the opportunity to master sailing. The residential building is located a few minutes from the Eurasia Tunnel, as well as the highway in Istanbul (E-5 and TEM). Thus, the project offers transport accessibility, which makes the area developed and comfortable for living. The project has more than 1400 apartments and all of them with windows overlooking the calm and beautiful sea. Apartments in the popular loft interior, and the choice of layout is varied from 1 plus 1 to 5 plus 1. The area of the premises varies from 55 to 545 square meters. Therefore, families from any number of people will find an apartment for themselves, which increases the comfort of living in this residential complex.
