The complex is located in the European part of Istanbul, in the lively Beyoglu district. And this is the very heart of the city. Nearby are places popular among citizens and tourists - Istiklal Street and Taksim Square. In the immediate vicinity of the object there is absolutely everything that will be necessary for a comfortable life. There are two metro stations very close by. You can walk to them in just a few minutes. In addition, within walking distance are higher educational institutions, secondary schools and several interesting museums. The building has nine floors, its architectural concept is expressive and modern. There are several layout options - from 1 + 1 to 3 + 1. True, such layouts can be called a formality. The fact is that this object has a very important feature. It has practical sliding walls, which makes it possible to easily separate one room from another, and, conversely, turn the apartment into a single space. To do this, a simple movement of the hand is enough, as if you were pulling a curtain. Another advantage of the complex is the spacious terraces and balconies, which offer a magnificent view of the city. The total number of apartments in this facility is 245. 15 comfortable office spaces are also available. The territory of the object covers 7 square kilometers. The internal infrastructure includes a modern cinema, swimming pool, SPA and fitness center. And for the residents of the complex, various shops are open. They are located on the first floor of the building. For those who want to save time, round-the-clock service is available. There is always a concierge on site. If necessary, you can order the delivery of groceries and other goods, use the services of a nanny or a cleaning lady. Direct transfers to the airport are also available.
