We present to your attention a unique object of complex development. It is being built in a key and incredibly prestigious part of Istanbul - Nisantasi. The most important two words characterizing this place are complex development. On an area of 97,000 m2, and if not everything you need is there, then the most important thing is definitely there. 62 apartments, 99 office spaces, a large hotel with 146 rooms, a shopping center, parking for 600 cars, but the listing may not end there. Many ideal places for hiking, as well as playgrounds. The territory of the complex has a space for recreational activities. The complex is located as close as possible to the city center, from there you can quickly walk to the districts of Taksim, Mecizhiköy, Zinçirlikuyu, Levent. It takes less than twenty minutes to be in these areas. Istanbul International Airport is a 40-minute drive away. Health and educational institutions are also located within walking distance. In addition, thanks to the designers and developers, it perfectly harmonizes with the restored objects of historical heritage. The buildings included in the complex are created in a style that does not stand out against the background of historically important architectural objects, but at the same time does not deviate from modern standards, and is also extremely comfortable for future owners.
